QUICK CARD

TRANSFER OPTIONS FILE TO USB FLASH DRIVE

You probably received the **options file** via email. The file needed is “**options.json**”. Confirm that the Serial Number of your OneAdvisor-800 matches what is shown in the “**Asset Unique Id**” in the email.

1. Insert the formatted USB flash drive into your Laptop or Personal Computer.
2. Transfer that file to a USB Flash Drive.
3. Eject the USB Flash Drive from your computer.
