

Service Information Letter

GPSG-1000 Maintenance Manual Update

Part Number 89023, Issue 2 dated October 23, 2019

Purpose

The purpose of this service information letter is to inform users of the GPSG-1000, p/n 87339, that an updated maintenance manual (Issue 2) has been released.

Effectivity

All GPSG-1000 users who wish to calibrate and verify their own units.

Summary of Changes

The GPSG-1000 maintenance manual has been released to give GPSG-1000 users updated procedures necessary to verify the unit's operation and calibration. The manual also contains an updated list of equipment required to do the verification and calibration, theory of operations, PCB board layout / module assembly drawings and a basic parts listing of the unit
